About the grant

* indicates a required field

Introduction

In June 2021, the Minister for Energy and Environment released the Waste and Sustainable Materials Strategy 2041 - Stage 1: 2021-2027 and the NSW Plastics Action Plan. The Waste and Sustainable Materials Strategy (WaSM) aims to change how the NSW economy produces, consumes, and recycles products and materials, and sets out a vision for transitioning to a circular economy over the next 20 years.

The Net Zero Organics Business Food Waste Partnerships program has been designed to help meet WaSM targets and support the transition to a circular economy. The program will fund industry peak bodies, councils, sector leaders and businesses that have proven records in supporting and educating their members or the Commercial & Industrial (C&I) sector through their established channels, and programs.

Through the program, grant funds will support successful applicants to raise food waste awareness and equip their members or the C&I sector to minimise food waste generation and implement food waste source separation in their operation.

Instructions for Applicants

Before completing this application form, you should have read the Organics Business Food Waste Partnerships Grant Program Guidelines.

Incomplete applications and/or applications received after the closing date will not be considered. It is recommended that you complete the eligibility section before any other sections to ensure you are eligible for this grant stream prior to completing an application.

If you have any questions about the eligibility criteria, the application form, or the grant program, please contact recycling@epa.nsw.gov.au or call 131 555.

If you do contact us throughout the application process, please quote the application number which is provided to you when you start an application.

Monitoring and Evaluation

Your metrics

You may add your own metrics here.

Metrics work best when they:

- Are quantifiable/numeric
- Are clearly defined and succinct
- Contain all the context needed to gauge and compare the result (e.g. unit [e.g. cm, metres, people, people-days, %, etc]; direction of change [increase; decrease; etc.]; timeframe [e.g. per month; per year; etc])
- Have been tested, and/or are in common use, and/or are commonly understood as a relevant and useful indicator of performance in a particular arena
- Are used sparingly - you are much better off to "ask one good question and answer it reliably" than try to track many things at once
- Relate to a clearly articulated outcome or activity.

Metric	Target	Collection method	Explanatory notes
One per row. Add more rows if you want to list additional metrics.	Identify a target for the metric you have chosen - an estimated total for your project. Must be a number.	How will you collect and verify the data? E.g. survey, interviews/case studies, focus groups, administrative data (e.g. case management data),	Add notes if you need to provide more context.

		observation/estimation, government or public dataset (e.g. Census), other datasets.	

Qualitative evidence

Qualitative evidence is a descriptive rather than numeric form of evidence designed to indicate whether or not progress towards an outcome is occurring.

Examples of qualitative data sources include interviews, testimonials, focus group transcripts/summaries, social media posts, media appearances/mentions, and artistic or multimedia depictions such as photographs, videos and audio/podcasts.

Qualitative evidence	Explanatory notes
Select the type of qualitative evidence you will use to help track your progress. One per row. Add more rows if you want to list additional types of qualitative evidence.	Add notes if you need to provide more context.
